Pastiglie freni DYNAS: rallentare è un piacere

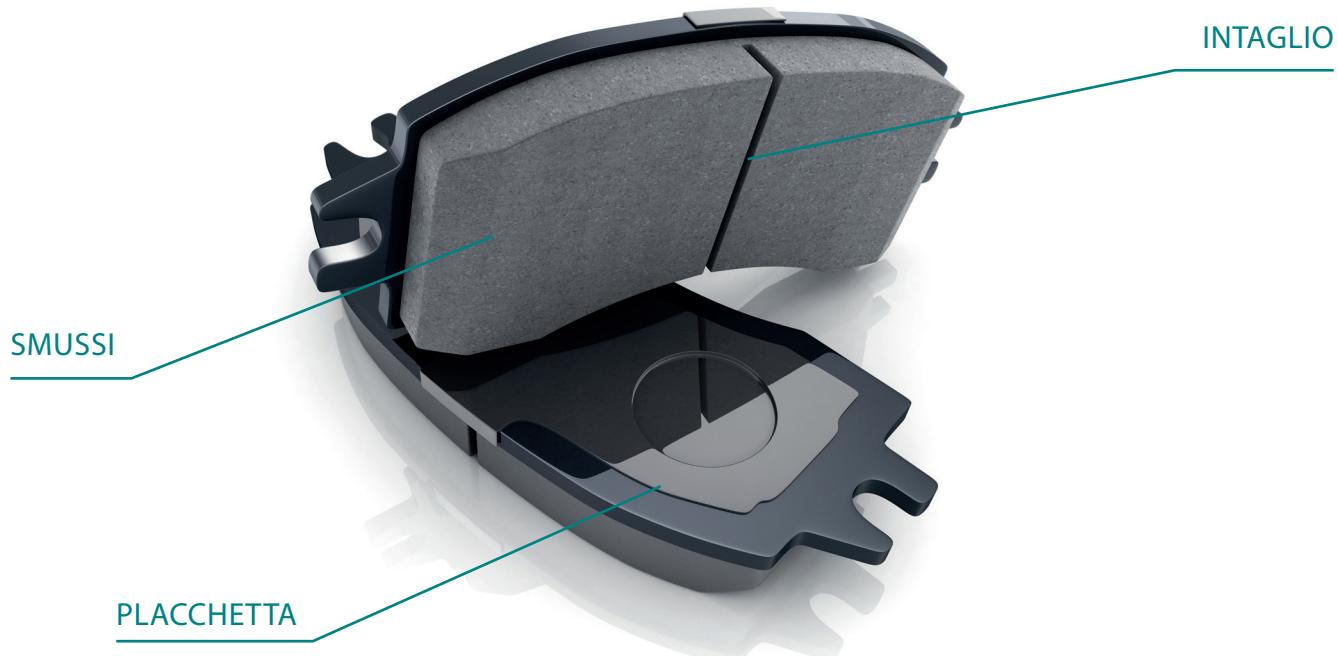

Con le **pastiglie freno DYNAS** rallentare è un piacere poiché, grazie ad un accurato bilanciamento di metalli, leganti, fibre, cariche ed abrasivi garantiscono buone prestazioni per tutta la vita utile del prodotto. Il giusto rapporto di ogni costituente della mescola ha permesso di ottenere un prodotto efficiente, sicuro e silenzioso. Tutte le **pastiglie freno DYNAS** sono testate secondo le severe normative previste dal **regolamento ECER90** a garanzia che le performances offerte siano in linea con quanto previsto per ciascun veicolo.

L'elevata conducibilità termica delle componenti metalliche permette di dissipare il calore rapidamente, permettendo loro di operare a temperature medio-alte garantendo caratteristiche di attrito stabili. Questa importante proprietà si rivela fondamentale anche dal punto di vista dell'intero sistema frenante, il quale risentendo in modo limitato degli effetti di trasmissione termica, opera al massimo delle sue possibilità. Il vasto range di temperature di esercizio permette alle pastiglie di essere utilizzate al di sotto del limite termico, oltre il quale non sarebbe più garantita una frenata efficiente.

Il coefficiente d'attrito pressoché costante, sia ad alte che a basse temperature ambientali garantisce fin dalle prime frenate buone risposte in termini di spazi di frenata e feeling al pedale.

Gli smussi laterali, il taglio centrale e le placchette antivibranti (in gergo "shim"), adottati per tutte le applicazioni ove ne viene richiesto l'impiego, sono elementi caratterizzanti che concorrono a rendere la frenata confortevole e silenziosa.

- **Smussi:** nei montaggi che le prevedono, vanno ad agevolare l'inserimento del disco nel punto di accostamento con le pastiglie evitando il contatto diretto con spigoli vivi;
- **Intaglio:** laddove le caratteristiche della pastiglia ne indicano la necessità, va a prevenire la formazione di fessurazioni che potrebbero svilupparsi a seguito del calore sviluppato in frenata, contribuendo alla diminuzione della trasmissione di vibrazioni.
- **Placchetta antivibrante:** è interposta tra pastiglie e pistoni (oppure pastiglia-pinza freno a seconda che si abbia una pinza flottante o fissa) in modo tale da assorbire parte delle vibrazioni generate dal contatto tra materiale d'attrito e disco.

Telaio e sospensioni vedranno così smorzato l'effetto di queste onde meccaniche. Grazie a questi piccoli ma importanti accorgimenti, si ha una maggior silenziosità.

Una frenata reattiva ed un corretto feeling con il pedale del freno sono di primaria importanza, ecco che quindi un'altra proprietà del materiale d'attrito entra in gioco. La bassa compressibilità delle pastiglie permette al guidatore di applicare in modo progressivo la giusta forza al pedale del freno. Se quest'ultimo parametro fosse elevato, a parità di effetto frenante sarebbe richiesta una più intensa forza sul pedale andando incontro ad una maggiore usura ed un prematuro surriscaldamento delle pastiglie stesse, inficiandone la qualità della frenata.

La giusta combinazione di materiali ed accorgimenti geometrici (slot e smussi), permette di prolungare la vita delle pastiglie, ridurre il quantitativo di polvere prodotta e preservare il buono stato del disco freno. Il complesso di tutte queste caratteristiche rende le **pastiglie freno DYNAS** versatili in grado di adattarsi ai diversi stili di guida.

DYNAS offre un prodotto curato nei minimi dettagli, con un packaging dal design semplice ed elegante. Il robusto imballo, sigillato per salvaguardarne l'integrità, garantisce che il prodotto possa pervenire in perfette condizioni fino all'utilizzatore.

Con **DYNAS**, rallentare è un piacere...

With Dynas, slowing down is a pleasure

Thanks to an optimized ratio among all mixing components, **DYNAS** brake pads can grant a safe product, noiseless, with good performances during all product life cycle. All **DYNAS** brake pads are tested accordingly strict standards defined by the **European Regulation ECER90**, which guarantee that performances are in line with prescriptions for each vehicle.

The high thermal conductivity of metallic components allows to dissipate heat more quickly, so brake pads can work at medium-high temperatures keeping steady friction parameters.

Sideward chamfers, cutting and anti-vibration shims, provided for applications which their use is required, help to make braking comfortable and safe.

The friction material has a low compressibility: feature that allows the driver to progressively apply the right force to the brake pedal, guaranteeing good braking quality.

The combination of all these features makes **DYNAS brake pads** versatile as they can adapt to different driving styles.

DYNAS supply products with attention to the smallest details, in a simple and styling packaging. The sturdy box is sealed to ensure its integrity up to the final user.

With **DYNAS**, slowing down is a pleasure...

Avec DYNAS, ralentir est un plaisir

Grâce à un mélange homogène de composants de qualité, les **plaquettes freins DYNAS** peuvent assurer un produit sûr et silencieux avec des bonnes performances pour toute la durée de vie utile du produit. Toutes les **plaquettes DYNAS** sont testées selon les normes les plus sévères du **règlement ECER90** qui garantit que les performances proposées correspondent aux exigences des constructeurs.

Les composants, métalliques assurent une très bonne dispersion de la chaleur et ainsi un coefficient de friction linéaire jusqu'à des températures très élevées.

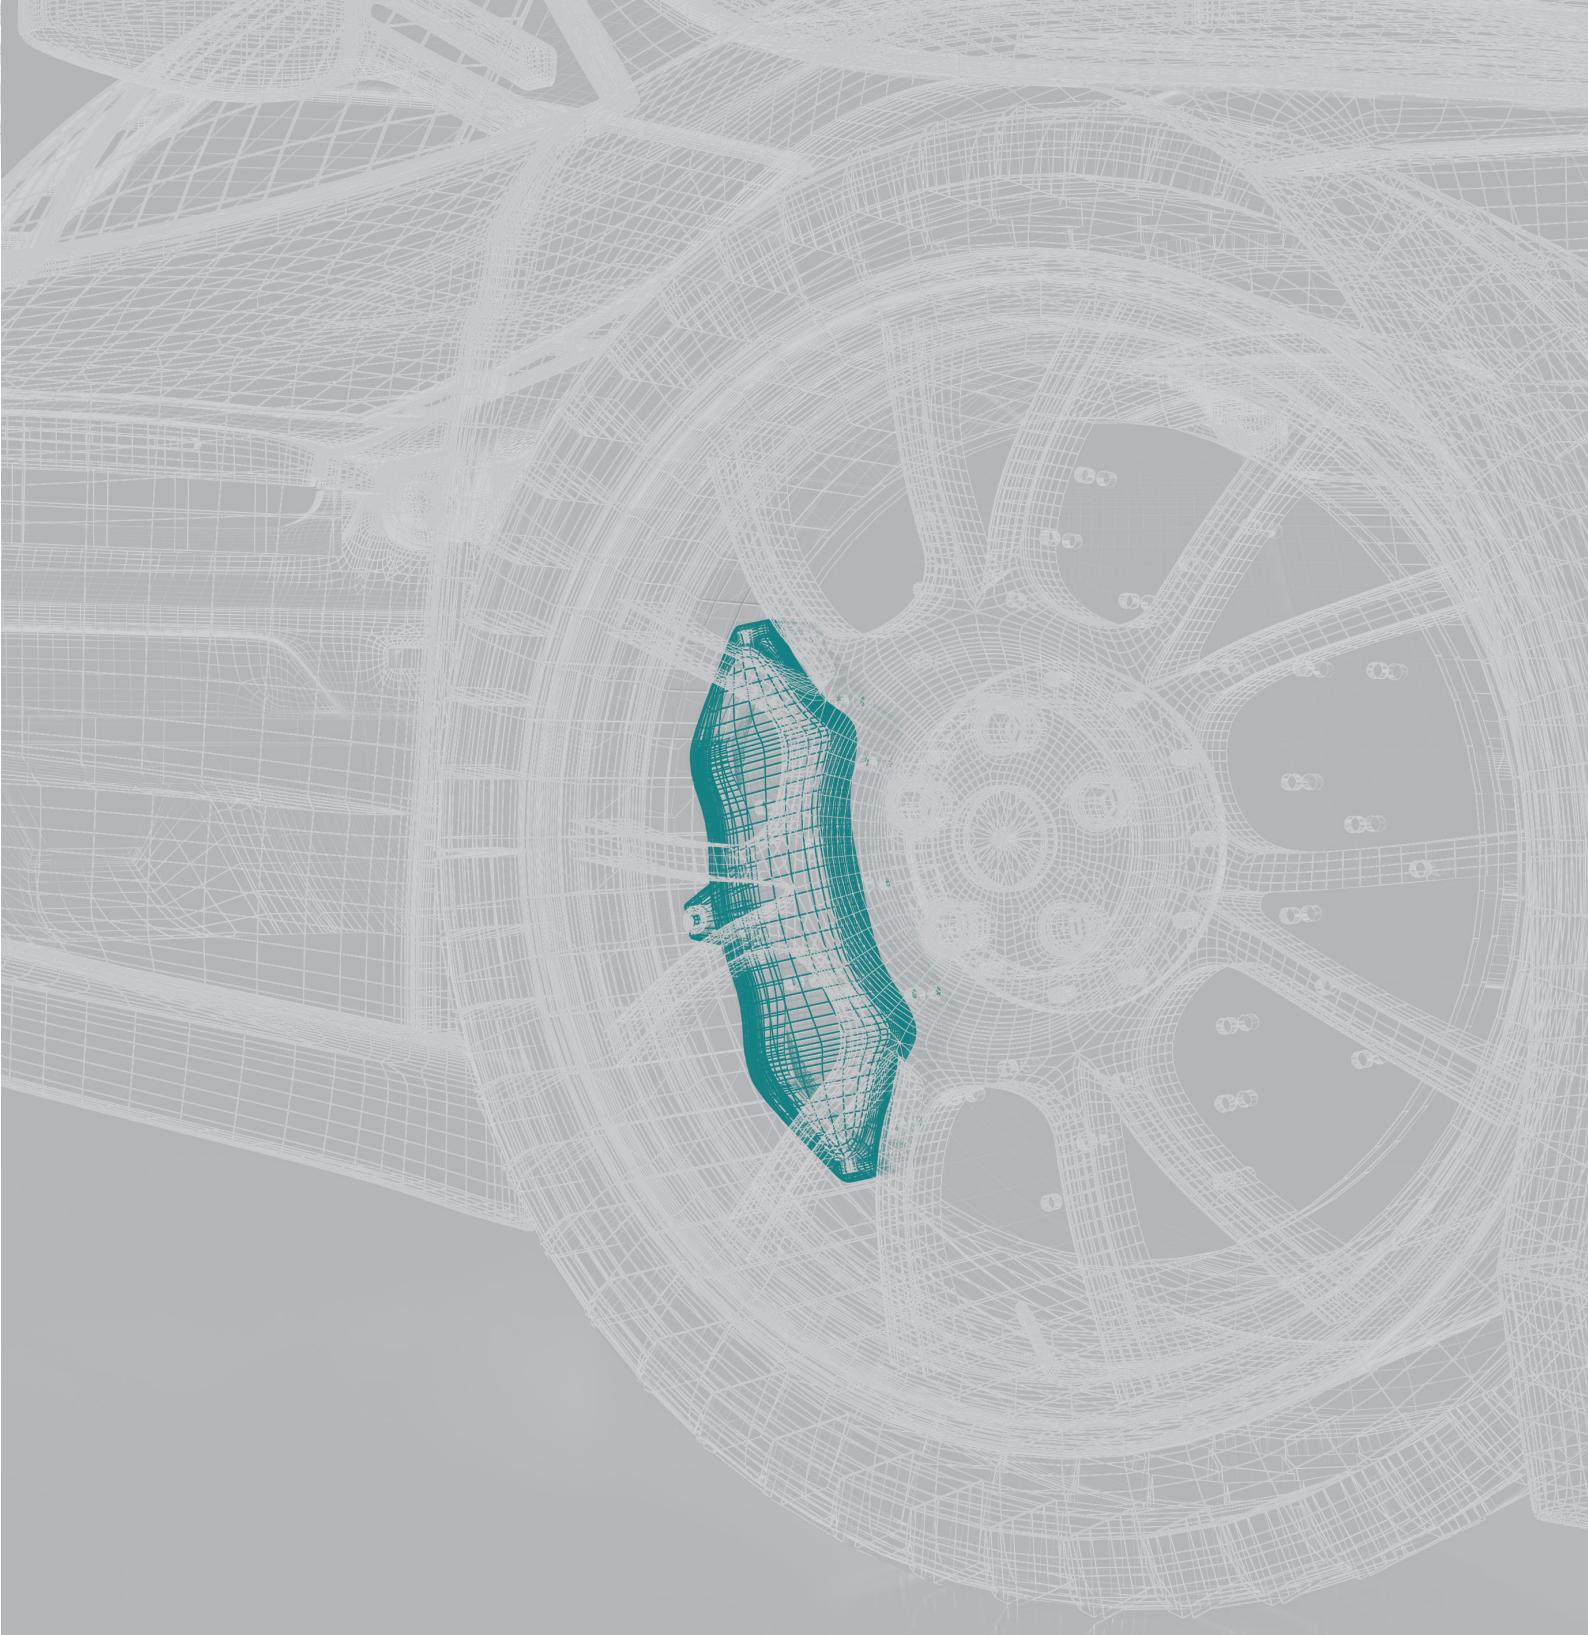

Les chanfreins latéraux, la rainure centrale et les plaques anti-vibration permettent un freinage confortable et silencieux.

Les matériaux de friction particulièrement bien dosé, mélangé et comprimé permet une bonne qualité de freinage malgré un faible effort sur la pédale de frein.

Ces caractéristiques rigoureuses permettent aux **plaquettes DYNAS** de s'adapter à tous les styles de conduite, quelque soit leur température d'utilisation, elles conservent une efficacité optimale.

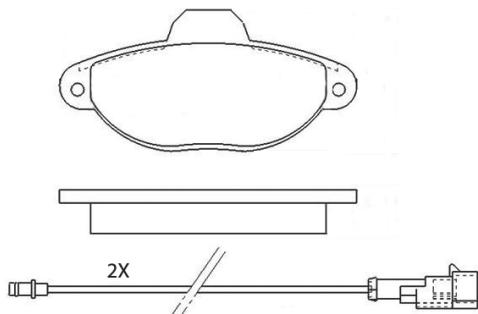

Notre produit est emballé avec un design simple, élégant et robuste. De plus un scellement de la boîte vous garantit la qualité et l'intégrité du produit.

Avec **DYNAS** ralentir est un plaisir...
